Eggology, a California egg-white producer becomes the only liquid egg brand to be "Certified Humane" by Virginia-based animal welfare auditing organization, **Humane Farm Animal Care**.

The first company to offer 100% organic and cage-free egg whites, Eggology maintains a close association with **The Humane Society** since being founded in the mid-90s. Certification standards include providing animals a nutritious diet without antibiotics or hormones, as well as raising them with shelters, resting areas, sufficient space and the ability to engage in natural behaviors. //
